What an exciting time to be in the cattle business with Hereford cattle. I am proud to see sale reports from all over the nation listing breeders from Texas as their top buyers. This can only expand and improve the genetics our Texas breeders make available to the industry.

I want to extend a huge thank you to all of our Texas Hereford breeders who reached out to help the ranchers in Texas, Oklahoma, Kansas and Colorado with cash donations, hay, feed, fencing mate-

rial and grass to care for cattle that survived the fires. Your generosity is much appreciated.

THA has been very active this past month promoting THA and Herefords with a presence in the International Room at the Houston Livestock Show, sponsoring part of the ABBA sale in Caldwell and sharing a booth with both TPHA and CHB at the TSCRA Convention. All were huge successes and THA should be proud of our involvement.

We have begun work on the 2017 annual membership directory. Every member will be mailed a herd listing form and ad reservation form. Please update your listing. I cannot stress enough how important it is that current members provide us with correct and complete information regarding phone numbers, e-mail addresses, directions to your ranch and herd information. We especially want to update those of you who have developed ranch web sites and can include you with a link from our web site.

Now is the time to select and hold a bull or group of bulls for our Fall Classic sale in Buffalo on October 18. We are also trying to build a female sale with this sale. We will accept both registered and commercial Hereford females as well as other breeds and crosses. Now is also a good time to select and breed a pen of heifers for our 49th annual replacement heifer show and sale to be held in Fort Worth on Sunday, January 28, 2018. Plan to select at least one or two extra to make sure you can get the minimum of ten for the pen show. We plan to have another heritage pen of cattle. Now is also a good time to select an entry for the annual Cowtown Invitational Sale. THA through some generous sponsors has encouraged our junior exhibitors to enter the open show by providing a cash award in the form of a scholarship. I solicit a few more donors as well as all junior exhibitors to consider bringing their heifers to the National Show in Fort Worth. The junior must be present and be at the halter of his or her own animal to be eligible for the four top placing heifer prize money.

Our juniors are busy preparing for another great state show and field day held jointly with TJPFA. The event will be held June 13-17 in Belton. As an advisor I can safely say that this event could not happen without the support of the Hereford breeders around the entire state. I encourage all members to respond favorably with both monetary and volunteer help. All THA members could benefit from watching our youth in action.

Hereford demand is as strong as ever and now is as good a time as ever to promote your herd with an ad in our publication. Remember "Advertising does not COST-IT PAYS!" ★

ABOUT HORN FLIES.**

It's starting to heat up to the peak of the horn fly season. A "do nothing" approach can be costly when the pressure is highest. When left untreated, these biting pests cause reductions in cattle weight gain that can lower profits by up to \$45 per head. Comparing animals not being fed a supplement to control flies, studies have shown that cattle on Altosid® IGR may gain as much as 15.8% more weight per day.* Do something about horn flies. "Long Haul" Cattle

The term "Long Haul" really is important these days – especially in the cattle industry! Consider the following...

MORE PROFIT comes from mamas that stay trouble-free and productive even after raising 7 or 8 or more calves.

MORE PROFIT comes from bulls that cover a large number of cows and last 4 or 5 or more breeding seasons.

MORE PROFIT comes from feedlot cattle that have time-proven carcass merit and capture the top premiums time after time.

MORE PROFIT comes from a whole herd that survives and thrives generation after generation...
